Energy

1.195.106.310

Active energy [kWh]

Variation vs previous year ▲ 15,9%

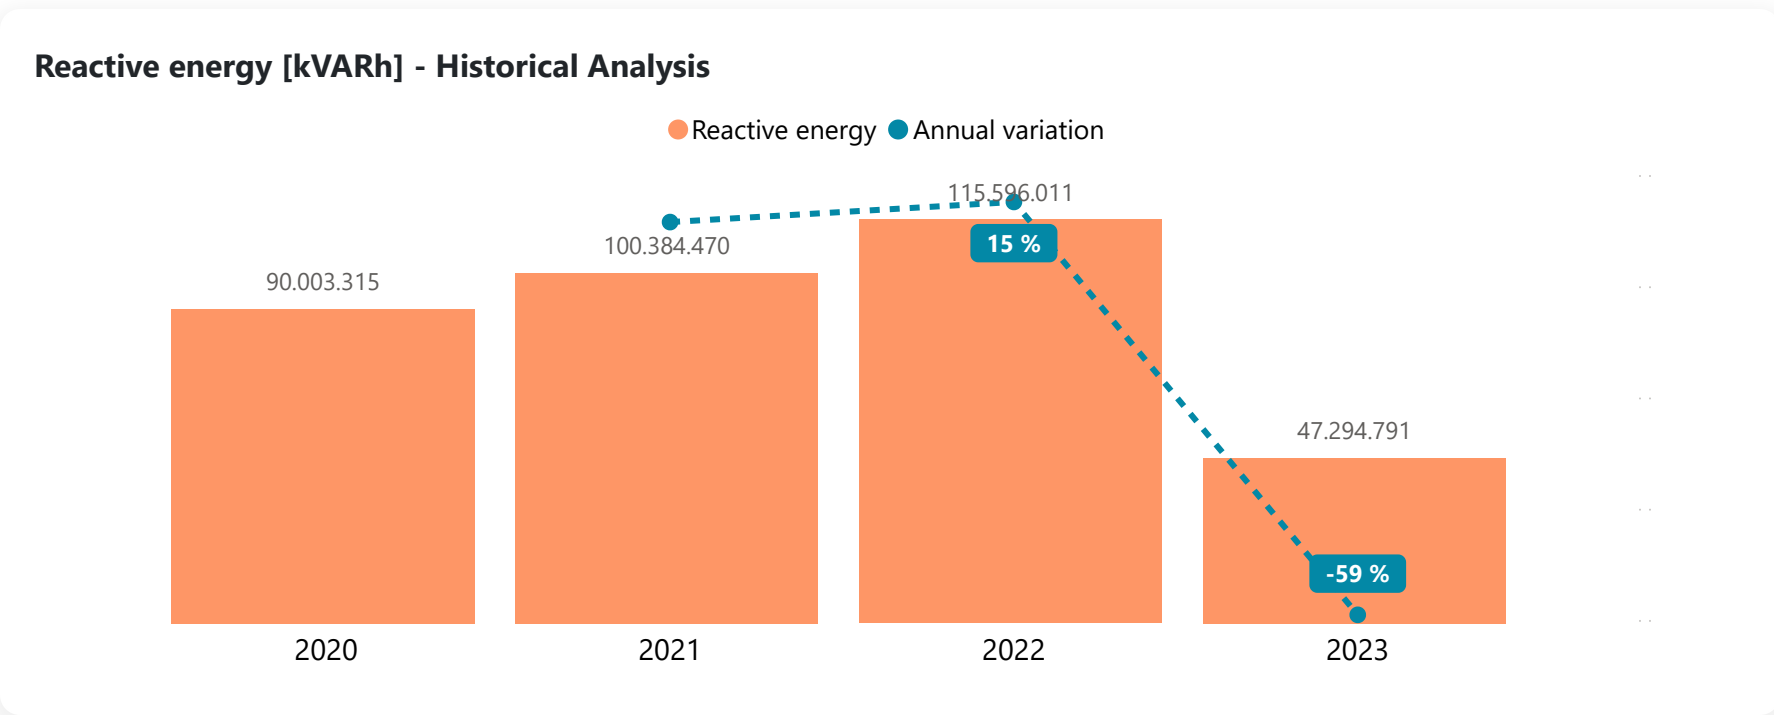

Energy

353.278.587

Reactive energy [kVARh]

Variation vs previous year ▲ 15,5%

Month with highest active energy demand - Annual analysis

January (31.930.560 kWh)

2020

October (35.138.531 kWh)

2021

July (35.066.950 kWh)

2022

May (31.961.797 kWh)

2023

Month with highest reactive energy demand - Annual analysis

January (10.212.566 kVARh)

2020

November (10.102.459 kVARh)

2021

March (10.257.358 kVARh)

2022

May (8.943.304 kVARh)

2023

Average ratio between energies

Department	Value
Amazonas	148.101.594
Antioquia	2.138.952
Bolívar	1.770.338
Caquetá	1.490.655
Casanare	362.433
Cauca	3.980.435
Chocó	106.090.973
Guainía	58.515.941
Guaviare	3.078.987
La Guajira	1.437.010
Magdalena	3.525.058
Meta	6.032.655
Nariño	4.692.824
Putumayo	28.417.862
San Andrés y Providencia	641.451.352
Valle del Cauca	2.568.383
Vaupés	54.403.367
Vichada	127.047.491
Total	1.195.106.310

Average maximum power [kW]

1.838,50

Departments with the most locations with low energy demand

Department	N° of localities	%
Vichada	189	5,74%
Vaupés	118	3,58%
Valle del Cauca	90	2,73%
San Andrés y Providencia	69	2,09%
Putumayo	74	2,25%
Nariño	624	18,94%
Meta	39	1,18%
Magdalena	41	1,24%
La Guajira	35	1,06%
Guaviare	38	1,15%
Guainía	73	2,22%
Chocó	802	27,41%
Total	3294	100,00%
